## **PEDRO Spring 2026: A New Direction In Form**

Spring signals a shift. Not a break from what came before, but the moment when form, intention, and energy realign. For Spring 2026, PEDRO introduces a seasonal collection that frames renewal through continuity, positioning elevated essentials as modern cult classics in the making.

Charles & Keith Group Headquarters, 6 Tai Seng Link, Singapore 534101

For Immediate Release

As the season shifts, PEDRO recalibrates its visual language to favor sharp silhouettes and intentional details that resonate with a modern global community. Rather than chasing novelty, the collection focuses on longevity, presence, and repeat wear; pieces designed to be recognised, returned to, and lived in.

Central to the Spring narrative is the introduction of a muted colour palette accentuated by cool hardware. Cognac and black serve as the core foundation, offering confidence and permanence while slate blue is interspersed as a subtle counterpoint, adding depth and freshness.

Beyond product, Spring 2026 represents a cultural opening. By evolving its core silhouettes, PEDRO invites new expressions and opens space for diverse communities to engage with the brand. It is a season defined by direction, where the initial spark of the season evolves into the sustained momentum of a new identity.

The PEDRO Spring 2026 Collection is now available in stores and online at [www.pedroshoes.com](http://www.pedroshoes.com).
